

What Could We Do With Our Existing Footprint?

April 2016

OPTION 1

Using only our existing footprint, and only going 3 stories high, we asked our Architects how many square feet we could get for our *Program*, if all spaces were to be used most efficiently.

Answer: 51,000 s.f.

What Could We Do With Our Existing Footprint?

April 2016

OPTION 2

Using only our existing footprint, we asked our Architects how high would we have to build in order to get the amount of square footage required (i.e., 68,000 s.f.) by our *Program*?

Answer: 5 stories high.
